

The song is about an expression when two souls, like drifting particles in the vastness of space, find their way to each other at precisely the right moment in life. It's that rare collision of cosmic timing, where their paths align, creating a beautiful encounter that feels as serendipitous as stars converging in the cosmic dance. Hence it's called Cosmonauts.

COSMONAUTS

FRONT SIDE

Print at 100% scale for most accurate measurements (even if it cuts off the edge of this page). Pre-fold along lines, then cut along border. Slip into a cassette case, scan the QR code to listen to the song.
